-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 42 and 43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis for the "trap" recited at line 4 of claim 42.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25, 26, 31, 35, 36 and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Hice, Sr. and Champel.

There is disclosed in both Hice and Champel an apparatus for heat-treating products, the apparatus comprising: a retort 50, 1 into which one or more products to be treated are placed; a heating means (steam source and steam inlet) for heating the retort; a coolant spray means 100, 10 for spraying a liquid coolant onto the products; a shielding means 54, 3 to substantially prevent the liquid coolant sprayed from the coolant spray means from impinging on an interior 62, 2 of the retort; and a product carrier.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 28 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hice, Sr. or Champel in view of Trescott.

Trescott discloses the use of a thermally insulating material a⁴ on an interior wall of a retort.

It would have been obvious to one skilled in the art to modify the shielding means of Hice or Champel with that taught in Trescott and provide a thermally insulating material, in order to retain the temperatures within the retort during operation.

Claims 30 and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hice, Sr. or Champel in view of Rogers.

Rogers discloses that it is known in the art to use an agitating means for applying a reciprocating motion to a product being heat treated in a retort.

It would have been obvious to one skilled in the art to provide the product agitating means of Rogers to the apparatus of Hice or Champel, in order to thoroughly mix the products during heat treatment.

Allowable Subject Matter

Claims 27, 29, 32-34, 37, 39 and 41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Campbell and Lauterbach are cited for their disclosure of the state of the art.
